

What is the FUNdable Zone?

Have you ever seen Shark Tank? If not, go on YouTube (please ask your parents for permission if needed), type in the Youtube Search Bar 'Kids on Shark Tank', you'll see that there are many videos of kids presenting to investors.

The FUNdable Zone is based on the globally popular Shark Tank show. The difference is you can present ANY type of business. Our investors (we call them FUNdavevectors), are real life entrepreneurs who have agreed to take part to encourage our kids and teens members.

How To Take Part?

To qualify to present and raise money for your business you must:

1. Complete all 6 levels of either the kids or teens program.
2. Write and send a simple one or two page business plan that describes your business, who your ideal customers are, how much money you have invested to date, how much money you have made, how much you have saved, how much you have donated.
3. Optional: Learnt/Learning to create pitch deck (powerpoint, google slides, canva)

Send your information to:

support@FUNancialFreedom.com

If you have any questions, please contact us.

Remember, you must get your parent's permission to take part.

We will email you / your parents dates of upcoming events.
